### **DETAILED ACTION**

1. Claims 81-156 are pending. Claims 1-80 have been cancelled and claims 81-156 are new claims in this communication filed 07/07/03 entered as Amendment B, paper no. 8.
2. Applicants' amendment to the Objection to the Abstract has overcome the Objection to the Abstract and is hereby withdrawn.

### ***Election/Restrictions***

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 81-153, drawn to entry of securities orders into a computer, classified in class 705, subclass 37.
  - II. Claims 154-156, drawn to providing an order placement window for a particular security, classified in class 705, subclass 36.
4. The inventions are distinct, each from the other because of the following reasons:

Inventions Group I and Group II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because Group I has separate utility such as entering the securities into a computer system and Group II, the

Art Unit: 3624

subcombination has separate utility such as a window for placing an order for a particular security.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination is proper.

6. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

7. Applicants' are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Applicants' are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(1).
